

CAREER WEB

*Here's an idea gleaned from an elementary/middle school teacher to **SHARE** with your staff. (simple yet effective)

She has actually used this idea to integrate Career Concepts in her classroom as a weekly activity, even with first graders.

It can be implemented in any number of ways, e.g., large group, small groups, partner activity or any combination of the above.

You could even encourage them to take it home for parent involvement. Might be used as a closing activity for the day, at the end of an activity, or part of an academic lesson connected to the EALR's.

Only limited by imagination. Please share your ideas on how to use it.
